

We recommend that our students pay attention to the following points in order to be able to register in the I. Semester of 2022-2023 without any problems.

- If you are going to be in the 2nd semester for the master's program or in the 3rd semester of the doctoral program as of I. semester of 2022-2023, you must have completed your advisor assignment process in the program no. 71 at [https://oibs2.metu.edu.tr/Menu\\_Program\\_0/](https://oibs2.metu.edu.tr/Menu_Program_0/). Otherwise, the SYSTEM WILL NOT ALLOW YOU TO REGISTER. It is enough to do this process once in your program.
- During the interactive registration, you must register for the course and have the approval of your advisor.
- If you do not get your advisor's approval, your registration will be considered incomplete, and the SYSTEM WILL NOT ALLOW YOU TO REGISTER DURING THE ADD-DROP PERIOD. You will not be allowed to register in any other way.
- During the add-drop period, only students who have graduated from master's degree are allowed to register for doctorate. If you have not registered in the interactive registrations, registration will not be possible during this period. You will not be allowed to register in any other way.
- In order to substitute the taken courses in "NI" status in the Scientific Preparation program to your main program, you must apply until the add-drops period in the first semester you started the program (with the replacement disposition application/request and the course replacement (substitution) disposition form at <http://iam.metu.edu.tr/en/forms>).
